READING PROGRAM

Reading time/title logs may be picked up at the library beginning Thursday, May 28, 2026, and must be completed and turned in to the librarian by Friday, July 10, 2026. An Award Ceremony and party will be held in July for all those who turn in reading logs.

Children may select books from the library or from other sources to read. To be eligible for the program, they must keep a reading log that lists the title of the books they read or a time log that lists how much time they spent reading. Non-readers who wish to participate may have parents read and keep logs for them. Children may join the reading program at any time during the month of June.

For more information, please call the library at 936-598-5522.
